

A bridge between Europe and Asia!

ISUGA, Europe-Asia Management Institute, was founded in 1990 by the Chamber of Commerce and Industry from Quimper, in relationship with École Nationale des Ponts & Chaussées and IGR (Institut de Gestion de Rennes : Rennes Management Institute) from Rennes 1 University.

This association between industry, a French graduate school and one of the best Management Institutes lead to an original study program mixing foreign languages, culture and international business.

This multicultural bridge is symbolized by the institute premises built according to the design of the Japanese architect Minoru INABA in 1993.
