

Study abroad in Asia

ISUGA 1st, 2nd, 4th & 5th year European students are welcome in Asia by one local partner university for several months.

The studyabroad period in Asia includes language courses within the local partner university as well as a total immersion in the Asian country's life; complementary courses about history, culture or society are often proposed in addition to language courses.

Such period is used to develop professional contacts, too: these can prove to be very beneficial for the preparation of the end-of-studies internship as well as for the search of the first job.

Students have a wide choice of selection of partner university (refer to "Academic partners" section : http://asia.isuga.fr/cn/espace_etudiants/partenaires_academiques); in the fall of 2009, European students learning Chinese language selected partners from Beijing - Suzhou - Shanghai - Hong Kong whereas those learning Japanese language selected Nagasaki - Toyama - Kyushu.

The table here below summarizes main costs associated with such studyabroad period.

	China	Taiwan	Japan*
Accommodation / month	100 to 150 â,-	50 to 100 â,-	350 to 800 â,-
Meals / month	50 to 150 â,-	50 to 150 â,-	200 to 600 â,-
Transportation / month	low	low	150 â,- metro Tokyo

* *Japan : most expensive in Yokohama, cheapest in the province*

The enclosed file provides an idea about the satisfaction of French students attending this semester in the fall of 2006.
